---

## SUMMARY

Skilled MERN stack developer with expertise in building fast, responsive, and scalable web applications. Proficient in MongoDB, Express.js, React.js, and Node.js. Strong problem-solving, teamwork, adaptability, and communication skills.

---

## SKILLS

- **Languages** : JavaScript, HTML, CSS
- **Frameworks/Libraries** : React.js, Node.js, Express.js, Tailwind CSS
- **Database** : MongoDB
- **Tools** : VS Code

---

## EXPERIENCE

### AzionXSourceify : [Live](#)

- I participated in the **EdgeX Contest** organized by *Azion* and *Sourceify* from November 17th to November 30th, 2024.
- Developed a responsive eCommerce site with shopping, courses, dynamic home screen, cart and **ranked 5th**.

### Fitness GYM : [Live](#)

- I took part in the **Paranox Contest** organized by TechXNinjas and Azion from October 24th to October 31st, 2024.
- Developed a responsive ReactJS landing page for a fitness gym and secured **13th position**.

---

## PROJECTS

### Ecommerce Website - Little Basket : [Live](#)

- Little Basket is a ReactJS-based eCommerce site for vegetables, fruits, and non-vegetables.
- Implemented secure sign-up, login features with authentication for user security.
- Created a user-friendly basket, Backend built with Express.js and MongoDB for database.

### Text Generator : [Live](#)

- I developed a playful text generator using React.js, Node.js, and Express.js to create fun messages for easy sharing on WhatsApp.
- Features a text box for generated messages, enabling copying and sharing across devices.

---

## EDUCATION

- **Bachelor of Computer Applications**  
Sri Narayan Singh College, 2023 - 2026
- **XII**  
Shri Ambika High School, 2020 - 2022, (78.2%)

---

## LANGUAGES

- **English** : Professional working proficiency
- **Hindi** : Native or bilingual proficiency
- **Urdu** : Native or bilingual proficiency
